

GOT TEN ?

...A request from the TBS Inclusion Task Force *

Have you ever felt that you or a family member (or a friend) could not take advantage of all that our community offers because of a disability?

Then this invitation is for you.

The purpose of the ITF is to help shape community life so that all members of the community have full and easy access to all TBS activities, events and communication.

We want to have a better sense of how many people in our community might have any condition - or be affected by such a condition - be it temporary or life-long, that may be an impediment to full inclusion in the wide range of events (social, educational or spiritual) at TBS, or any of our community's communications

HAVE YOU OR SOMEONE YOU CARE ABOUT EVER SAID?

"I'd like to take my son to services, but I worry that his impulsive calling out might disturb other congregants who don't know about his condition."

"My mother says she'd like to come to the Scholar in Residence events, but assumes she can't get into most of the venues with her wheelchair."

"Our daughter has social anxiety disorder. She'd really like to be involved in BESTY, and we would love that, but her worries get in the way."

"My hearing loss makes it really hard for me to hear what's going on at temple. I used to love to go, but these days I miss so much---it's just a lot easier to stay at home on Shabbat and do my own thing."

***Really, only 10 minutes.
No obligations and no follow-up emails unless you say so. It can make a big difference to you or those you care about.
Watch for other news about disability-related events at TBS.
It's the beginning of a new era.**

Please help us by taking this 10 minute survey:

The TBS Inclusion Task Force (ITF) is made up of a number of TBS members who have a professional and/or personal commitment to making sure that the TBS community continues to be a warm, welcoming place for all its members, regardless of any special need or condition that may affect them or someone they love. Making sure that TBS is fully accessible to all is not only a matter of human rights and personal dignity, but is part of a sacred mission that is fully consistent with and guided by our Jewish values.
